

OPENING THE INTUITIVE CENTERS FOR THE AQUARIAN AGE

Yogi Bhanan said: "Meditation and life are very interlocked. It is important to be able to know what is going on beneath the surface of situations. Ordinarily untrained people can do this 15% of the time, but the ideal is to have your intuition work at the 60% level or higher." During the Aquarian Age the vibration has shifted to give us all awareness of our intuition and our divine connected consciousness. To know through intuition is in our biology and is our birthright. Everyone can learn to use the technology of Kundalini to open and access hidden abilities.

Students will have the opportunity to apply these tools to open their own intuitive channels, to practice discerning intuitive, mediumistic or channeled information from the mind, and to give and receive messages.
